

Disclosure Policy:

The American Society of Anesthesiologists remains strongly committed to providing the best available evidence-based clinical information to participants of this educational activity and requires an open disclosure of any potential conflict of interest identified by our faculty members. It is not the intent of the American Society of Anesthesiologists to eliminate all situations of potential conflict of interest, but rather to enable those who are working with the American Society of Anesthesiologists to recognize situations that may be subject to question by others. All disclosed conflicts of interest are reviewed by the educational activity course director/chair to ensure that such situations are properly evaluated and, if necessary, resolved. The American Society of Anesthesiologists educational standards pertaining to conflict of interest are intended to maintain the professional autonomy of the clinical experts inherent in promoting a balanced presentation of science. Through our review process, all American Society of Anesthesiologists CME activities are ensured of independent, objective, scientifically balanced presentations of information. Disclosure of any or no relationships will be made available for all educational activities.

Disclaimer:

The information provided at this CME activity is for continuing education purposes only and is not meant to substitute for the independent medical judgment of a healthcare provider relative to diagnostic and treatment options of a specific patient's medical condition.

Target Audience:

This activity is intended for anesthesiologists. Researchers and other health care professionals with an interest in anesthesiology may also participate.

Statement of Educational Need

The following educational collaborative competencies have been established:

- ❖ Values/Ethics for inter-professional practice
- ❖ Roles/Responsibilities
- ❖ Inter-professional communication
- ❖ Teams and teamwork

Learning Objectives

Upon completion of this activity, learners will:

- ❖ At the conclusion of this activity, participants will be able to apply new updates on pediatrics, obstetrics, and cardiac anesthesiology to their current practice of medicine.
- ❖ At the conclusion of this activity, participants will be able to synthesis and analyze information on physician well-being and perform techniques to avoid physician burnout.
- ❖ At the conclusion of this activity, participants will be able to interpret quality metrics and the closed claims process and assess how they can relate them to their current practice of medicine in order to improve patient care.

Institute of Medicine Competencies

- ❖ Provide patient-centered care
- ❖ Work in interdisciplinary teams
- ❖ Employ evidence-based practice
- ❖ Apply quality improvement
- ❖ Utilize informatics

A detailed agenda for the meeting can be located at the following web address:
